 STANDBY X150- 04 / X200- 04 X300- 05 / X350- 05englishX500- 04 / X6001.INTRODUCTIONthis guide has been prepared for the operator of Carrier Transicold refrigeration units. It contains basic instructions for the daily operation of the refrigeration unit as well as safety information, troubleshooting tips, and other information that will help you to
 deliver the load in the best possible condition. Xarios range is simple, tried and tested design; low-cost purchase and operation to equip middle size delivery vehicles. Please take the time to read the information contained in this booklet and refer to it whenever you have a question about the operation of your Carrier Transicold unit. This manual refers
 to the standard model. Some options may not appear in it, and in such cases you are requested to consult our Technical Services. Your refrigeration unit has been engineered to provide long, trouble-free performance when it is properly operated and maintained. The checks outlined in this guide will help to minimize on the road problems. In addition,
 a comprehensive maintenance program will help to insure that the unit continues to operate reliably. Such a maintenance program will also help to control operating costs, increase the units working life, and improve performance. When having your unit serviced, be sure to specify genuine Carrier Transicold replacement parts for the highest quality
 and best reliability. At Carrier Transicold, we are continually working to improve the products that we build for our customers. As a result, specifications may change without notice. CONTENTS 1. Introduction 2. Identification 3.1. Warning stickers maintenance
 2.1. Nameplate 2.2. Noise level sticker (fixed if available) 2.3. Installation 3. Warnings and precautions 3.1. Warning stickers maintenance
 4. Product loading 5. Recommended transport temperatures 6. Quick glance on the display board 6.1. Cab control 7.
 Operation 7.1. Operating principle 7.1.1. In ROAD mode 7.1.2. In STANDBY mode 7.1.3. Temperature control

 012.IDENTIFICATIONkeep the fold out sheet while reading the instructions. 2.1. Nameplate Each unit is identified by a nameplate attached to the frame of the unit. The nameplate identifies the complete model number of the unit, the serial number and some other information. If a problem occurs, please refer to the information on this plate, and
 make a note of the model and serial number before calling for assistance. This information will be needed when you contact a technician so that he may properly assist you. The complete nameplate is fixed on the frame (1a) and the Serial Number is fixed on unit side (1b) : easily readable. 2.2. Noise level sticker (fixed if available)This sticker indicates
 the noise level in Lwa (acoustic pressure). 2.3. InstallationXarios are manufactured as a split-system, enabling them to adapt to any vehicle and any configuration. a. Evaporator b. Condenser c. Cab control d. Compressor mounting kit e. Vehicle battery f. Standby plug g. Main road fuse 3. WARNINGS AND PRECAUTIONSThis manual contains safety
 and service instructions to follow in order to prevent any accident. Some of following stickers have been placed on the product for your SAFETY. BEFORE USING THIS REFRIGERANT UNIT, read carefully all safety information explained in this manual and indicated on the product. Be sure that everybody who will use this refrigeration unit has been
 trained to use it in a safe way. DURING THE USE OR MAINTENANCE OF THIS REFRIGERATION UNIT, the notes on safety are to be considered. Personal Protective Equipment : Always use adequate Personal Protective Equipment before doing anything on this refrigerant unit, as explained in this manual.Working at height : Take all necessary safety
 precautions when accessing this refrigeration unit : use safe ladders, working platforms with appropriate guards. 62-61177-01 5Automatic start : This refrigeration unit is equipped with Auto-Start/Stop, a valuable fuel saving feature. When this refrigeration unit is set for Auto-start/Stop operation it may start at any time and without warning. Before
 servicing refrigeration unit, make sure the main power switch is on the OFF position. Ensure the unit will not restart. Lock-out / Tag-out can be performed by disconnecting and enclosing : - The negative battery cable in diesel mode - The electrical plug in electrical mode. Belts and fans : This refrigeration unit is equipped with Auto-start/stop, it may
 start at any time and without warning. When the unit is running beware of belts and fans that are moving.Before servicing refrigeration unit, make sure the main power switch is on the OFF position. Ensure the unit will not restart. Lock-out / Tag-out can be performed as described above. Whe carrier transicold troubleshooting pdf© Copyright 2021
