

I'm not robot!

Directions (1-5) what approximate value should come in place of question mark in the following questions? (You are not expected to calculate the exact value).

1. $33\frac{1}{3}\%$ of 768.9 + 25% of 161.2 - 58.12 = ?
- 230
 - 240
 - 235
 - 220
 - None of these

Answer (b) Explanation:
 $7 = 33\frac{1}{3}\% \times \frac{768.9}{100} + \frac{25}{100} \times 161.2 - 58.12$
 $\Rightarrow 7 = 256.3 + 40.3 - 58.12 + 238.18 = 240$

2. $\frac{2^{16} \times 2^{17}}{2^{15}} = 2^{17}$
- 8.83
 - 1.54
 - 9.32
 - 1.89
 - None of these

Answer (d) Explanation:
 $2^{16+17-15} = 2^{18}$
 $2^{18} = 2^{17} \times 2$
 $\therefore 7 = 1.89$

3. $8^{13} \times 64^4 \times 16^2 = 2^?$
- 2.1
 - 3.8
 - 5.9
 - 4.7
 - None of these

Answer (c) Explanation:
 $8^{13} \times 64^4 \times 16^2$
 $= 2^{39.8} \times 2^{28.8} \times 2^{9.8}$
 $= 2^{39.8+28.8+9.8} = 2^{78.4}$

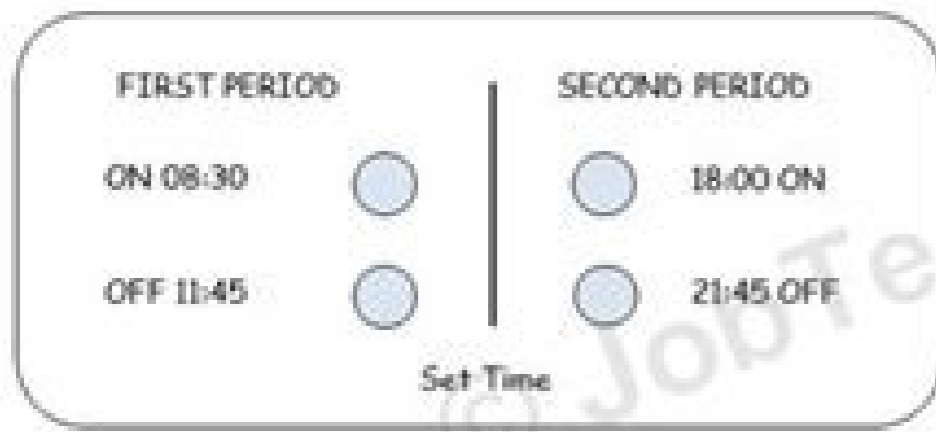

Godrej Aptitude

- opposite of Essential \leftrightarrow unnecessary
- opposite of Inert \leftrightarrow Active
- opposite of Genuine \rightarrow False
- Jolly means - ~~Phantasy~~ Gay.
- 'A drowning man catches the last straw' - meaning of the proverb.
- Find the odd-man out:
 a) Nagpur (b) Chandigarh (c) Delhi
 ✓ (d) Punjab (e) Rajkot.
- If 'when' is to 'where', then time is to -
 - Ans. Space.
- What is essential for man to survive?
 - Ans: food.
- Past is to think, future is to _____
 - Ans. Recall.
- Sum of two consecutive numbers is 55.
 what is the magnitude of maximum number.
 Ans - 28.
- opposite of 'raw' \rightarrow 'ripe'.

BPEC Test Question Preview

How long is the heating on during the whole day?

- 6 hours
- 6 hours 30 minutes
- 6 hours 45 minutes
- 7 hours 25 minutes
- 7 hours
- 8 hours 25 minutes

Explanation

Next Question

What questions are asked in an aptitude test. What percentage do you need to pass an aptitude test. Is the bnsf assessment test hard.

Bringing on an Apprentice? Level 1 student? Level 2 student? New entrant? The online aptitude test is a great tool to help you find the right candidate for your courses. Why not complete the practice assessment and see whether it could assist you with your entry requirements for your courses? Please contact our Services team via: E: Services@bpec.org.uk T: 01332 376000 There are many reasons why you should become an apprentice plumber, such as: Earn while you learn, Achieve an accredited qualification, It is a lifelong career, Great career progression opportunities. The plumbing apprenticeship is a four-year course with a mixture of on the job training with your employer and off the job training at college. During your apprenticeship, you will learn all the latest skills from experienced industry professionals, while earning your qualifications. You will also have a dedicated regional officer to monitor your progress who will meet regularly with you, your employer and your college. After you have completed the main part of your plumbing qualification, you and your employer will then decide which solid fuel option you will undertake. The options are ACS Gas, OFTEC Oil, HETAS, Solid Fuel or Low Carbon Technologies. On completion of a successful apprenticeship, an apprentice will gain the SVQ Level 3 Modern Apprenticeship in Plumbing and Heating, which is the only recognised plumbing qualification in Scotland, and is graded by the Scottish and Northern Ireland Joint Industry Board (SNJIB) as a plumber. Entry requirements The Modern Apprenticeship in Plumbing and Heating is an employer-led qualification meaning you need to be employed directly with a plumbing and heating firm to undertake it. You will need to find a firm to employ you and guide you through the apprenticeship programme. Potential candidates are expected to have a minimum of four National Four qualifications at general level (previously standard grades). In addition, all candidates must pass the BPEC Aptitude and Selection Test. You can practice the selection test here. While there is no age restriction for entry to the Modern Apprenticeship in Plumbing and Heating, restrictions on government funding mean access to the programme depends on suitable funding being available. School or college leavers aged 16-19 will be guaranteed a place, however access to the programme for those aged 20 and above is subject to funding availability. To be successful as a modern apprentice plumber you must meet employer expectations in terms of: Have good practical, problem-solving and communication skills, Be smart, reliable, polite, punctual and able to listen, Have a proven ability to achieve and willingness to learn, Flexible attitude towards work, be prepared to go the extra mile! Proactive approach and ability to use initiative, Pleasant manner when dealing with clients/customers, Excellent timekeeping. Download our guide to becoming an apprentice plumber here Finding an employer We recommend you ask around your family and friends to see if they know any plumbing companies that are looking to employ an apprentice plumber. SNIFE Training Services is also setting up a database for employers looking to take on an apprentice. If you would like to be listed on this database please fill in our application form The internet is also a good tool to find a potential employer. If you visit the www.needaplumber.org website, you can enter your postcode and select a distance radius. This will then bring up a list of SNIFE member companies in your local area that you can contact to see if they are looking to employ an apprentice plumber. Equal opportunities The plumbing apprenticeship programme is open to everyone regardless of age, sex, race, religion etc. We are an equal opportunities training provider and welcome all candidates regardless of their backgrounds. Our aim is to help build a more equal and diverse workforce within the plumbing industry in Scotland. Skills Development Scotland The employer-led plumbing apprenticeship programme receives contribution funding from Skills Development Scotland (SDS). For more information, please visit the SDS website. 3 full-length BPEC practice tests 11 verbal reasoning tests 4 mechanical tests 2 numerical skills tests 3 study guides + video tutorial Full explanations & solving tips Smart score reports Immediate online access, everywhere, anytime Secured payment Immediate online access, practice 24/7 License for 3 months The BPEC or British Plumbing Employers Council require anyone attending one of their certification courses to take the BPEC aptitude test before they can get a place on the course. This test is a 45 minute test with trades based questions examining your maths and language skills in a work day context. The questions are not too difficult but the need to complete the test in the time allocated means that you are under pressure to answer quickly and accurately. This page will tell you more about the types of questions to expect and how to prepare for the different parts of the test with JobTestPrep. Test Details Time - 45 minutes Questions - multiple choice Subjects - numerical, mechanical, spatial reasoning and as well as reading comprehension In general terms the questions focus on plumbing concepts such as boiler issues, calculating bills, areas, scale readings, spatial awareness, and comprehension. The questions are not on a particularly difficult level but you have to have the knowledge and skill levels to complete the test. Brushing up on your skills is absolutely necessary if you want to do well in this test. Although you may have used these skills before in your education they are probably lying dormant. By getting a practice pack you will pick up the skills you need to get through this test. The BPEC test contains a few different types of questions. The underlying idea behind each of them is that they have to do with a situation that you could face in your future line of work. Below we go through the different possible test questions you can face. Numerical/Maths Questions The questions that you are asked in the BPEC aptitude test cover a variety of topics including: Time questions - These questions involve working out the number of hours worked, converting times from 12 hour to 24 hour clock, and reading a clock face to work out the time. Geometry questions - These involve calculating area of circles, squares and rectangles. Money based questions - You may find several questions asking you to work out pay packets (basic and overtime pay) or bills. These also include percentages questions for VAT additions to bills. Although you may use a calculator, practising your mental arithmetic skills and making sure that you can work out percentages accurately ahead of the test will help you improve your score in the test. Practise for these questions with our basic numerical reasoning test pack, to make sure that you know what to do in the real test. Spatial Reasoning Also known as shape manipulation, in these questions you are asked to convert shapes from 2D to 3D or the other way around, or to work out which shapes correspond to their plan. These types of questions are often used in tests for technical jobs as they examine your understanding of plans, logic and problem solving skills. You can learn more about these types of questions on our dedicated page. There are a number of different question types and they are all included in the BPEC aptitude test pack that we offer. Mechanical Reasoning Mechanical reasoning questions test your understanding of mechanical concepts such as forces and motion. In the BPEC test you are faced with questions examining your ability to manipulate cogs, levers and pulleys. As you use these skills and principles on a daily basis you are tested on them in the BPEC test. To answer these questions you need to be able to apply the practical knowledge you have to the theory. Verbal Comprehension The ability to read and understand written instructions is an important skill in any job. After reading through the text you have to answer questions based on what you have read. You have to examine the text and find the focus point of the question from the text. These questions focus on your ability to extract the correct information from a passage centring on a plumbing concept, often installation instructions. How can we help you? Passing the BPEC test is an absolute necessity if you want to be a plumber. Failure is not an option if you want to succeed. It is therefore imperative that you know in advance what you will be tested on, how to answer the questions, and are able to complete the test within the time limit. We recommend getting our BPEC practice test package to give you the best chance of success. Looking forward helping you on your path to success. When finding the right apprentice for an apprenticeship, employers will typically use a selection process that incorporates aptitude tests. These tests are designed to assess intelligence, knowledge and skills. The most commonly used aptitude tests are numerical aptitude, verbal aptitude and abstract reasoning. You may be asked to complete them online as part of the application process, or you may be invited to an assessment centre. Each test will be timed, and they should reveal the relevant skills required for the role in question. Below we have put together some information about the more common types of assessments you may come across as part of the selection process, so that you understand what they are and why employers use them. Psychometric Tests are a key component of the Apprenticeship application process. The makeup of the psychometric tests you'll face will depend on the Apprenticeship firm you apply for. They will include psychometric tests such as numerical reasoning tests, verbal reasoning test, diagrammatic reasoning tests and situational judgement tests. So, if you're applying for a role in an Apprenticeship firm, it's important to find out more about these psychometric tests and get practice doing them to improve your performance. Apprenticeship Numerical Reasoning Tests The numerical reasoning test assesses your ability to evaluate, analyze, and interpret numerical information that will be provided to you in charts, graphs, and tables. It's particularly to practice numerical reasoning tests before you take the exams to improve your accuracy and the speed you can answer the questions. Apprenticeship Verbal Reasoning Tests Verbal reasoning tests assess your understanding and comprehension skills. In the verbal reasoning test you will be presented with a short passage of text which you'll be required to interpret before answering questions on. These are typically in the 'True, False, Cannot Say' multiple choice format, although there are a range of alternatives too. Apprenticeship Situational Judgement Tests The situational judgment test is a set of questions assessing how you might react to hypothetical events and situations that are encountered in the workplace. Based on how you answer the situational judgment test, the company will get an understanding of whether you're a good fit for them.
